

BLOCK SEWING PATTERN

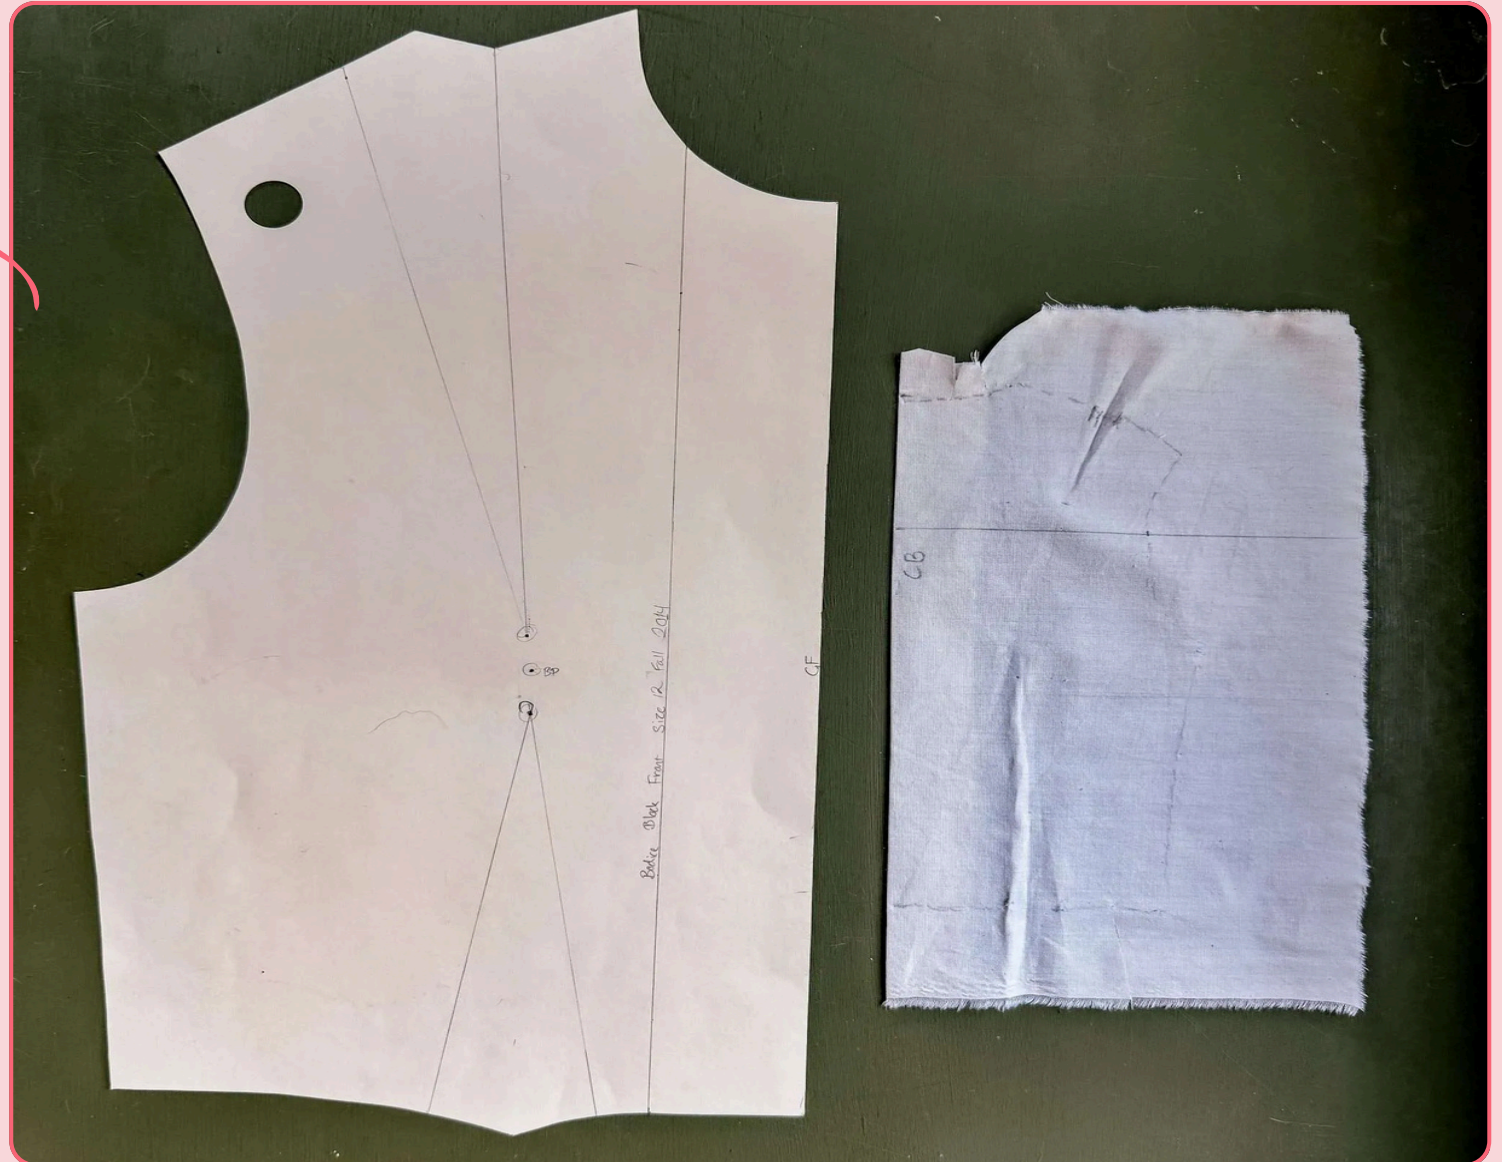

What Is a Pattern Block Sewing?

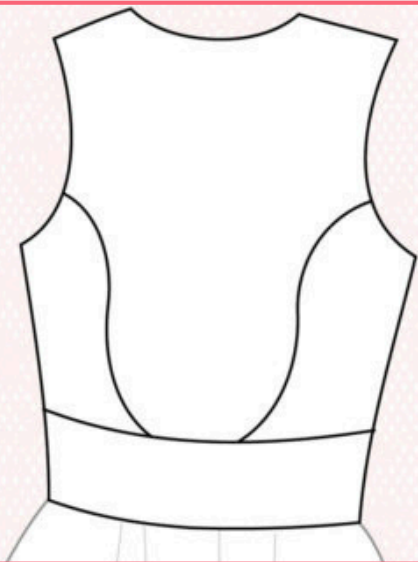

A pattern block in sewing is basically your starting point. It is a simple, well-fitted base that you can reuse for different designs.

It's like a “master shape” of your body. 😊

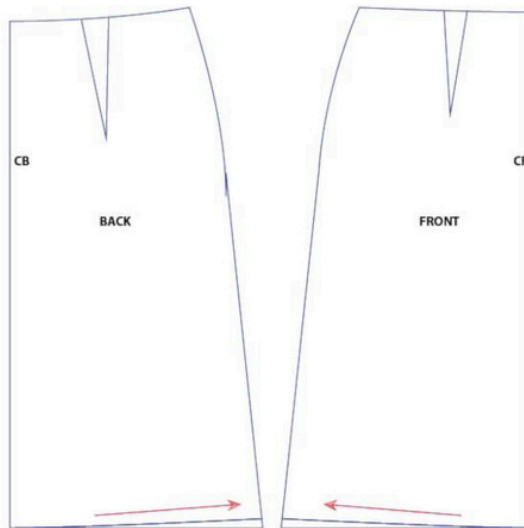

Once you’ve made one that fits perfectly, you can trace it to create all sorts of clothes, dresses, tops, purse and skirts. You do not need to start from scratch every time.

Types Of Block Pattern

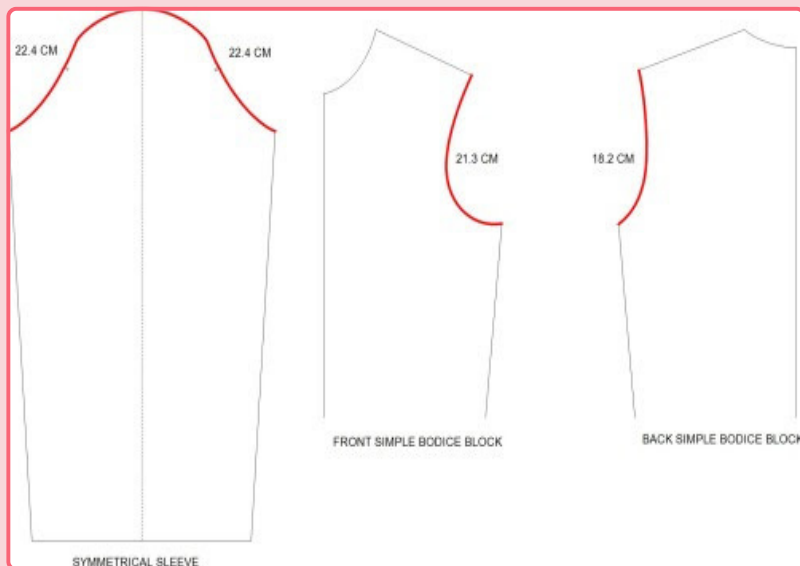

Bodice Block

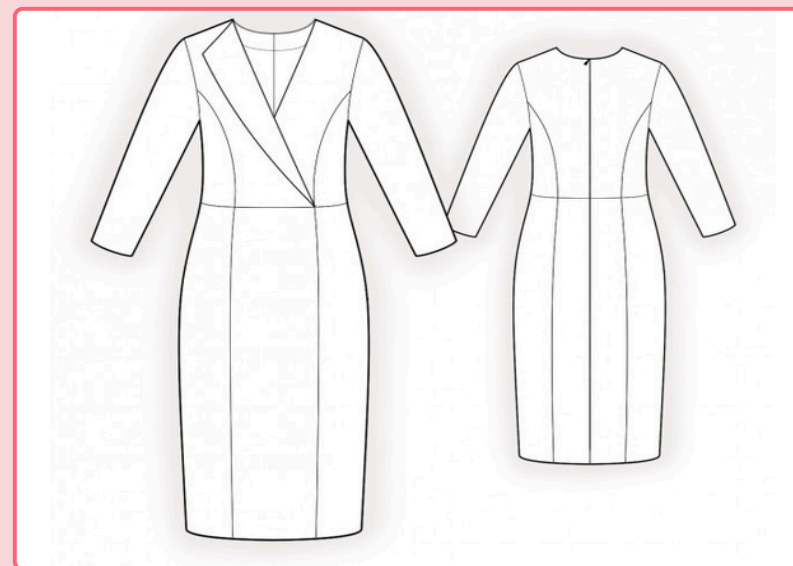

Skirt Block

Trouser Block

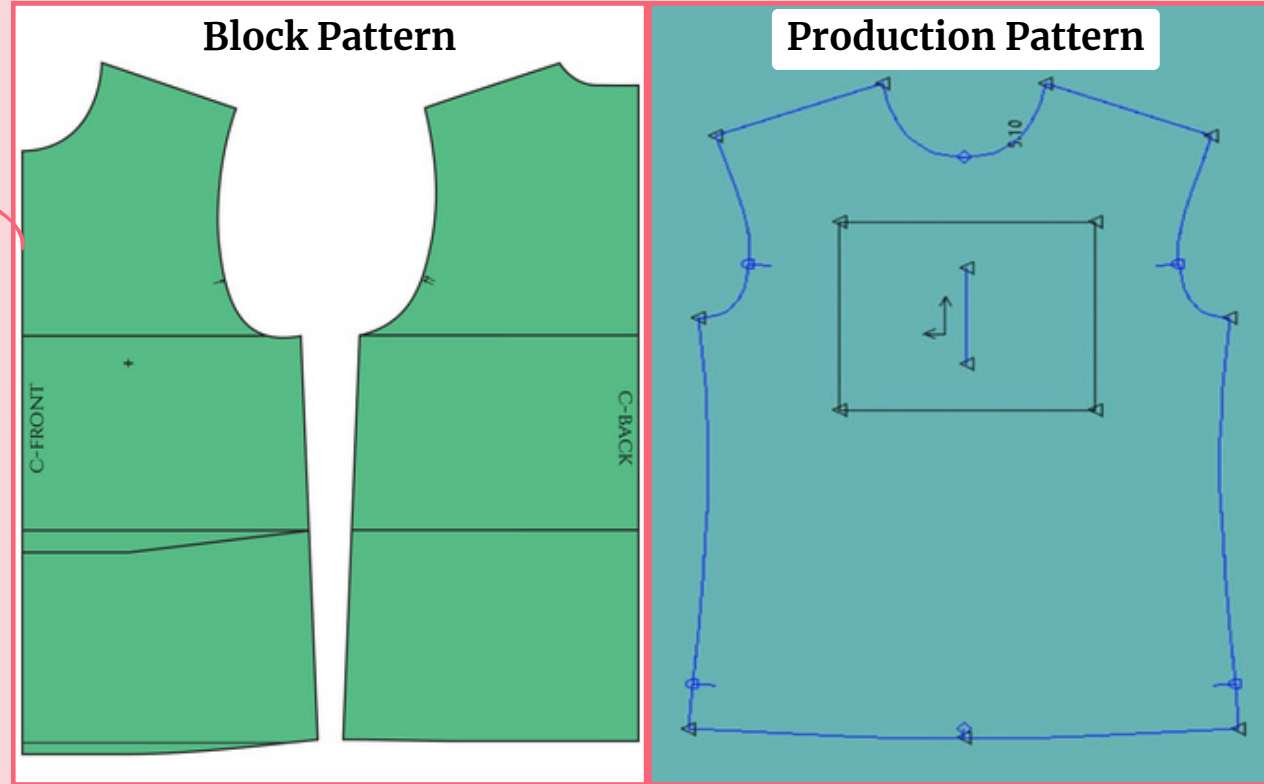

Sleeve Block

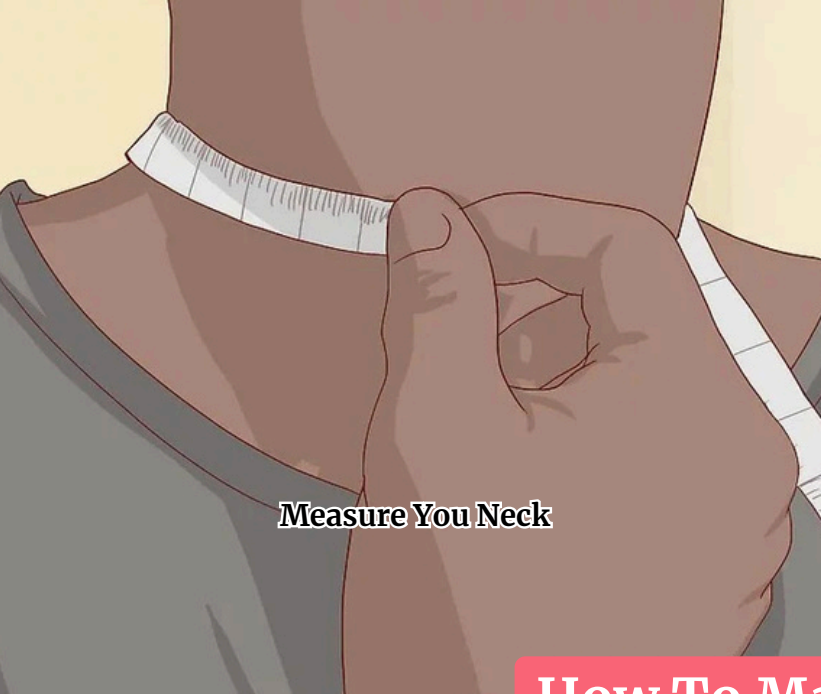

Dress Block

What Is the Difference Between Block Pattern and Production Pattern?

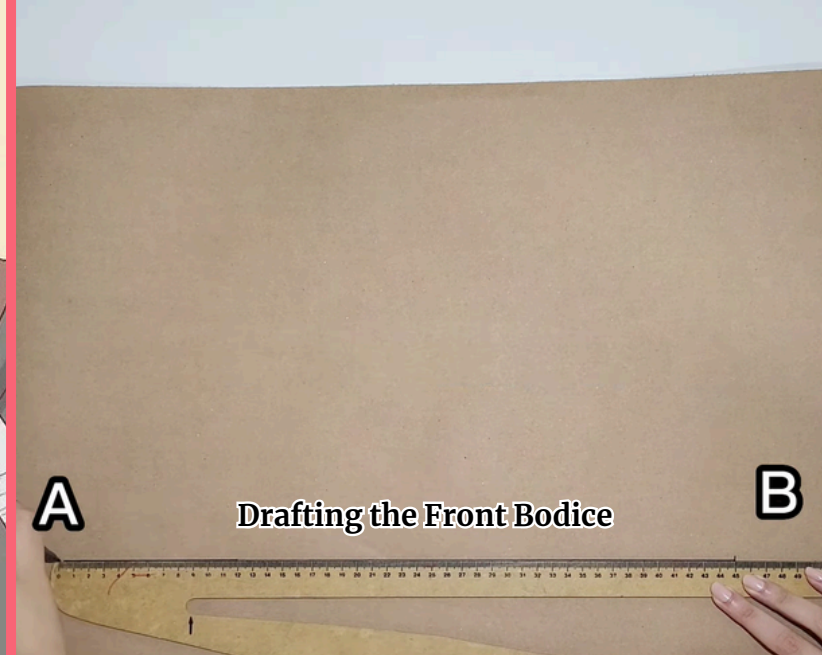

The block pattern is the blueprint.

The production pattern is the finished map ready for stitching.
